Allowable Subject Matter

3. Claims 1-11, 32-34 are allowed.
4. The following is an examiner's statement of reasons for allowance:

As per Claims 1 and 32.

The prior art of record, specifically Garback ('499) in view of DeLorme et al ('040) further in view of DeMarcken ('808) or Webber ('953) or Guenther ('748) does not disclose or fairly teach:

identifying a first airport, the first airport being within a first threshold measurement of the activity location, wherein the first threshold measurement comprises at least one of a walking distance, a set distance and a time threshold; computing an optimal arrival time from the activity start time, the activity location and the first airport;

identifying a first departing flight associated with the first airport, the identified first departing flight associated with a flight arrival time and the identified first departing flight being between the origin location and the first airport;

wherein the flight arrival time of the identified first departing flight is prior to the optimal arrival time;

identifying an optimal ground transportation option between the first airport and the activity location; and

determining an optimal trip option for transportation from the origin location to the activity location, wherein the optimal option includes the first identified departing flight and the optimal ground transportation option.

The claims that depend from the above are allowable for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
